In the November election Mr. Coler supported Tammany's ticket, and of late has preserved a silence due, it is said, to the expectation that Tammany would nominate him for mayor. In the meantime, the anti-Tammany element discovered that he is not the man to put against Tammany, and now no one is speaking the praises of Mr. Coler.

The General Court of Massachusetts, which is the official name of the Legislature, has spent much time over a subway bill which affects the streets of Boston. One branch passed a bill, and it was under consideration in the other. Wishing to avoid waste of time and unwilling to deteat a bilt in which Boston is exclusively interested, Governor Crane notified members of the Legislature that if the bill came to him without a clause submitting it to the peoble he would veto it. This is certainly unusual action, but why not tell the Legislature. before a veto as well as in it, what must be done to make the measure acceptable?

Here is one of the not infrequent instances in Indiana in which trials on indictments for the taking of human life have been postponed so long that people have come to the conclusion that the chances are that men who take human life have the courts on their side. Of course, this is not the case; nevertheless, it is true that a great many people are laboring under such an impression. People will reason that if life-taking is the crime the law would make it the trial of men indicted for it should take precedence of all other matters in the courts. Not only does any censiderable delay in trial give the impression that punishment, if guilty, is not important, but it makes the work of the prosecution much more difficult, because witnesses may die or be induced to leave the country or be tampered with by the de-

Let it be no longer said that the tardiness or the uncertainty of justice sanctions the anarchy of lynching.

#### DECLINE IN THE PRICE OF MONEY. It is a curious fact that while the pur-

chasing power of money is greater than it was a dozen or fifteen years ago, its earning capacity has fallen off in a marked manner in that period. The resumption of specie payments Jan. 1, 1879, was preceded by the refunding of United States 6-per-cent. bonds in 4 per cents. Since that time all the bonds of railroads and like corporations bearing 7 per cent, interest have been refunded at less than 4 per cent. In respect to farm mortgages the decline has been more recent, but even greater. For a time after 1880 farm mortgages in the newer Indiana 8 per cent. The lender had so much the advantage because of the scarcity of money that the borrower paid A year or more ago Controller Coler, of rather more than the rates above named. Now the lenders are fortunate who can get 5 per cent, on farm mortgages. A few years ago building and loan associations paid shareholders from 10 to 12 per cent. To-day such associations are going out of business because they cannot pay even half these rates. The associations which receive deposits of a dollar and pay 3 or 31/2 per cent. interest are getting the savings of the people who do not put them into life in-

It is safe to say that such estates have lost half their value since the resumption of specie payments, measured by the interest they earn. Thousands of families that had abundance in 1880 are obliged to economize now. The person of small savings does not deposit now for profit, but mainly for security. But those who have gained by the decline of rates of money hire are more numerous. Every manufacturer, business man and corporation, who constitute the bulk of borrowers, get money from the banks for one-half the discount of fifteen years ago, which is greatly to their advantage. The same process is going on in the textile industries. These industries have been conducted in Saxony in a small way for years, the business being handed down from father to son. Within ten years corporations with limited liabilities have taken the place of the family factories, bringing economy in production and stopping the cut-throat competition. In Belgium the iron and steel industries are controlled by a few mine owners and manufacturers. As for England, it is the mother of real trusts, which cannot exist under the laws of the United States. These have multiplied during the past twenty years to an extent that there is scarcely a promnent branch of industry which is not under the control of a trust combination. There are hundreds of trusts and combinations of the first magnitude. Men engaged in a branch of industry sell their plants and good will to themselves and form a united company, or trust, with largely increased capital and shares which are sold to investors. Often the preferred stock represents more in value than the plant and business purchased, while the common stock has only such value as the credulous investors may impute to it. Free trade does not interfere with such combination, binations in England than in the United manufacturers are more conservative.

KANSAS CITY, Mo., June 10 .- The State,

in the case of Lulu Prince-Kennedy, on trial for murdering her husband, rested this afternoon and court adjourned until to-morrow, when the defendant's side will be presented. The case probably will be given to the jury some time Saturday. Today the State adduced additional evidence to prove its claim that Kennedy was forced to marry Lulu Prince at the muzzle of a revolver; that Will Prince furnished the weapon and nerved her up to committing Kennedy and predicted the number of days before it occurred, and that the woman's claim that she was in a delicate condition and shot him in a fit of temporary insanity, produced by this condition, was untrue. The defendant, the witness said, wore a dark suit and to imply bad character in the cross-examination of this witness. The witness denied that the defense had offered him anything beyond his expenses for his affidavit. William J. Kennedy, train dispatcher for the Staten Island Rapid Transit Company, who was a witness for the State at the last trial, was called for the defense to-day, He examined Dr. Kennedy's commutation book, and said that the last train for which the Aug. 15 ticket would have been good would have been that connecting with the 2:25 ferryboat. If the person took the 2:10 boat the ticket chopper would have taken the ferry ticket for the 16th. Dr. Kennedy's commutation book contained the tickets for the 16th. Thomas Fenley, Staten island hackman said he had known Dr. Kennedy by sight

occurred on April 12 last. For weeks preceding the city was terrorized by a series of burgiaries and robberies. Kahney was shot down in his home while standing unarmed in his night clothes, and Fitzgerald was killed a few hours later while attempting to arrest the defendants. The wives of Edward Biddle and Walter Dorman were arrested at the same time, and will be tried on charges of receiving stolen goods. The defendants will be tried separately, and the case of John Biddle was called first. It is believed Dorman will turn

State's evidence. The widow of the murdered man told graphically the story of the night of the murder. How, having a strange intuition of coming evil, she had gone through the house to see that all was secure, and finally fell asleep on the bed with her boy, who was restless and nervous. How she was awakened by feeling a hand and cloth over her face. She tried to rise and was roughly thrust back by the strong man who was endeavoring to drug her into insensibility. She detected the pungent and burning odor, and, realizing her situation, struggled desperately, but was thrust back again by WHO IS ACCUSED OF MURDERING another of the robbers who had come to his companion's aid

Her thought flew to the helpless boy by her side, and at the thought of his peril she tore herself loose and sprang to her feet, one of the men still clinging to her with his back to the door her husband was entering. The shot rang out and the murderer and his companions fled. The noise of more than one pair of feet on the oilcloth told her there were two besides the one that had her. She told how she opened the window and screamed for help. Her husband gasped, "Wait until I get my revolver," staggered into the other room and stumbled back again, to fall dying at her
